GUIDELINES – STAND CONSTRUCTION PROJECTS

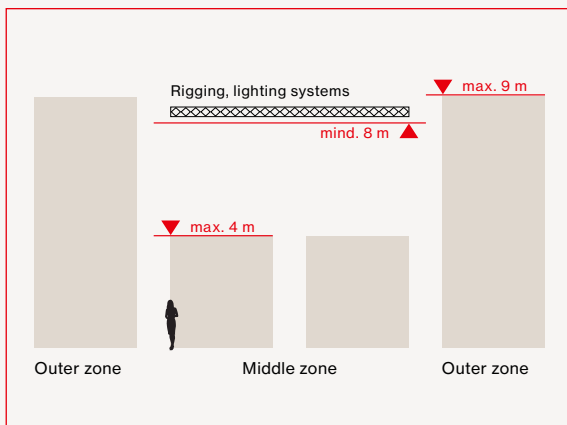

IN ALL HALLS | FOR THE ENTIRE DURATION OF THE TRADE FAIR

In order to ensure that the exhibition stands comply with the construction and safety aspects, we require the following documents from you to be sent to info@swissbau.ch for inspection and approval:

- Floor plan, sectional plan, front views, perspectives (e.g. renderings) Inscription and logo details (where placed)
- Dimensioning of the stand and details of the construction height

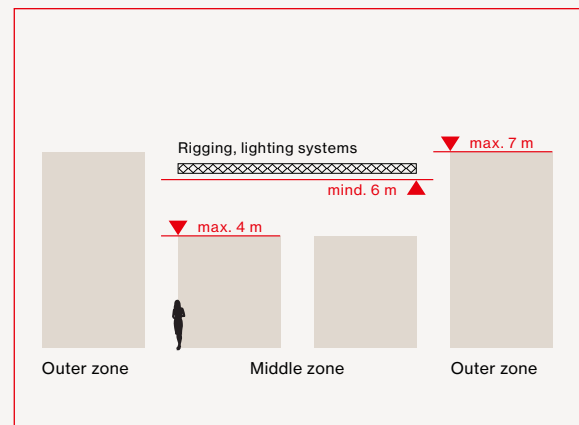

HALL 1.0

- All stands except exhibitors with system stands must submit their project.
- Middle zone: Maximum construction height up to 4 m (excluding exhibits); no suspensions possible
- Outer zone: Construction height up to 9 m possible.

HALL 1.1

- All stands except exhibitors with system stands must submit their project.
- Middle zone: Maximum height up to 4 m (excluding exhibits); no suspensions possible.
- Outer zone: Building height up to 7 m possible.

HALLS 2.1 / 2.2

- All stands over 50 m² except exhibitors with system stands must submit their project.
- Maximum height up to 4 m.
- Trendworld Bath: Separate entry of all stands.

IMPORTANT INFORMATION

Detailed information can be found in the specific Swissbau stand design guidelines and in the stand construction guidelines at swissbau.ch/regulations. Please inform your stand builder about guidelines and submission deadline.
